

Science Educator

Emerald Coast Science Center, Fort Walton Beach FL

Classification: Flexible - Part-time

Do you want to make a difference? Do you love science? Do you have a gift for connecting to people of all ages? Does the idea of inspiring others excite you? Does working with like-minded, fun, and amazing people intrigue you? If so we may have the perfect job for you! The science center looks for people who are willing to grow, think, dream and create. Our culture thrives by embracing diversity and imagination. At the science center, it's about each person bringing skills and passion to a challenging and constantly evolving environment.

You Are:

- Someone who is organized, and is comfortable learning new concepts and contributing ideas
- A person who takes the reins when needed, and willing to take initiative
- A contributor, someone who wants to be an important part of an amazing team, communication is your jam
- Open-minded, and flexible in attitude and approach
- A natural when it comes to problem-solving, thinking outside the box is so you
- Enthusiastic! You are eager to work with students, teachers, and families.
- Comfortable. You enjoy speaking in front of groups and letting your light shine
- A person who likes variety. You are able to work a flexible, constantly changing schedule that could include mornings, afternoons, nights, and occasional Saturdays, because working a boring schedule is not your vibe.
- An adventurer, you have a car, and do not mind traveling to other places in the community.
- Knowledgeable. You have, or are pursuing a degree, have classroom experience, or you have what it takes with a willingness to learn
- Dedicated. -You have a lot to offer and you want to put your time into a place that appreciates you, and your unique talents, you are willing to work hard and leave a little of your sparkle behind so others can benefit

One more thing: This is a great position for someone that has, or is pursuing an educational or science degree. Our former educators have said that working at ECSC impacted them in so many positive ways, both personally and professionally, and most say it is the best job they have ever had.

P.S. Stuff you should know

The Educator generally works in a climate-controlled environment. Tasks require a variety of physical activities, generally not involving muscular strain (up to 50 lbs.), related to walking, standing, stooping, sitting, reaching, lifting, etc.

The Emerald Coast Science Center values the diversity of culture and thought and seeks talented, qualified employees in all its operations regardless of race, gender, national origin, religion, sexual orientation, disability, age, or any other protected classification under country or local law.
