### Emerald Coast Science Center Classroom Expectations (Required)

The expectations, rules, and procedures of the Emerald Coast Science Center are intended to keep the classroom environment safe, organized, creative, and productive. We are with your children for a short time, but we would like to make the most of that time together. If a student is unable to follow the classroom expectations we will redirect them to a different area so that the other students are able to continue learning without interruption.

#### Emerald Coast Science Center Classroom Expectations:

• **Listen to the Educator/Follow Instructions.**

- When the educator is speaking students should stay **quiet**. This is important so that everyone can hear and understand directions.
- It is important to follow the educator's directions to ensure safety and maximize learning.

• **Put your hand up if you want to speak/answer.**

- To maintain classroom standards and allow students the right to speak and be heard, the hand raising method should be used when sharing information or to answer/ask questions.

• **Remain seated and in the classroom unless you have permission to get up and move around.**

- For the safety of all students and to keep classroom interruptions to a minimum, students should use the "hand raising method" should they need to get up from their seat.
- If students need to use the restroom the "hand raising method" should be used. One student at a time will be permitted to use the facilities.

• **We keep our hands/feet to ourselves.**

- Students should respect each other and keep their hands and feet to themselves.
- Supplies and equipment should not be used as play weapons to fight or hit other students.

• **Take care of our exhibits and equipment.**

- Treat exhibits, tools, and supplies with respect and care.
- Put away supplies when directed.
- Supplies and equipment should not be thrown on the floor, slammed against tables, or used as play weapons.

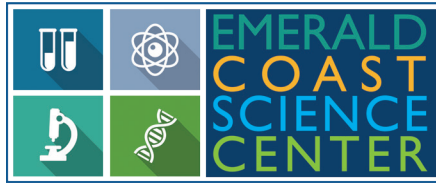

To ensure the best classroom experience we encourage you to share these expectations with your child before coming to class. Please feel free to contact us with any questions or concerns you may have. Thank you for your support of the Emerald Coast Science Center. We look forward to sharing many exciting moments with your child.

Please sign and date to acknowledge your awareness and agreement to ECSC's classroom expectations.
